

Teen Facts

Purpose:

The purpose of this activity is to help your child to practice the teen facts, for example $10 + 4 = 14$.

Link to the Number Framework:

Place Value, Stage 4

What you need:

Game cards. You can print these or make your own.

Cardboard. (Old cereal boxes are good)

What to do:

Glue the cards on to cardboard. Cut, shuffle and deal the cards between the players. Players place any pairs, for example $10 + 5$ and 15 are pairs, on the table in front of them. Players take turns to ask each other for a card to complete a pair. The winner is the first player to place all their cards in pairs.

What to expect your child to do:

To correctly make the teen facts.

Variation:

Use the $10 +$ cards as flash cards and ask your child to quickly give the answer.

Related Māori Vocab:

tāpiri (~a)	add
tāpiritanga	addition
otinga	answer, result
takirua	pair
riwhiriwhi (~a)	shuffle
toha (~ina)	deal, distribute
